

Cab booking application

Name: Shri Narayani L

Register no: 24BIT153

Department: B.Sc.IT-B

Introduction

1. Cab Booking Application is an online platform for booking taxis easily.
2. Users can search for available cabs and book rides instantly.
3. The system provides real-time booking and driver details.
4. Helps reduce manual booking process.
5. Developed using MERN Stack for high performance and scalability.

Objectives

- 1. Provide easy cab booking service.
- 2. Allow users to register and login securely.
- 3. Display available cabs based on location.
- 4. Enable online booking and ride tracking.
- 5. Store booking data efficiently.
- 6. Provide user-friendly interface.

Technology used

MongoDB

NoSQL database

Stores user and booking details

Express.js

Backend framework

Handles API requests

React.js

Frontend user interface

Creates responsive web pages

Node.js

Server-side runtime environment

Handles application logic

System Architecture

1. Frontend developed using React.js
2. Backend developed using Node.js and Express.js
3. Database managed using MongoDB
4. REST API connects frontend and backend
5. User interacts through web browser
6. Data stored securely in database

Flow: User → React Frontend → Express API → Node Server → MongoDB Database

Features

- User Registration and Login
 - Search Available Cabs
 - Book Ride Online
- View Driver Details
 - Ride History
- Secure Authentication
 - Responsive Design
- Real-time Data Handling

Conclusion

- Cab Booking Application simplifies transportation booking.
 - MERN Stack provides fast and scalable development.
 - The system ensures secure data management.
 - Easy to use interface improves user experience.
- Future enhancements can include live GPS tracking and online payment integration.

The background is a light blue gradient with a dark blue border at the top and bottom. Scattered throughout are various-sized rounded squares, some with dark blue outlines and others with light blue outlines. The text "Thank You" is centered in a dark blue, serif font with a subtle drop shadow.

**Thank
You**
